

# **Digital Photography presented by Dan Johnson**

## **I. Making Images, NOT Taking Images**

### **A. Tools**

1. storytelling
2. light
3. composition
4. vision

### **B. Using the Viewfinder vs. the Screen**

### **C. Evaluate the Light**

1. sunrise (cool)
2. sunset (warm)
3. fluorescent light
4. your flash illuminates 10-15 feet
5. using the flash

### **D. Setting Exposure**

1. set camera to over expose with F stops when shooting in snow
2. -2 -1 0 +1 +2
3. concert shots should be under exposed
4. larger the light source, softer the light

### **E. Composition**

1. rule of thirds
2. frame with existing objects
3. pattern
4. form
5. texture
6. parallax

### **F. Tight is Right**

### **G. Focus and Frame**

1. push camera button 1/2 way down to focus
2. AV = aperture priority
3. TV = shutter priority

## **II. Tight is Right & Focus and Frame**
